SUSTAINABLE
AQUACULTURE
CONFERENCE

AQUAGREEN
EXPO

A virtual commercial space, whose purpose is to publicize the service or product providers involved in the Congress. The format consists of a virtual tour through 4 thematic pavilions:

AQUACULTURE, HYDROPONICS, ENERGY AND SUSTAINABLE PRODUCTION

Entry is totally FREE for everyone and can be viewed from any browser anywhere in the world.

WHAT IS AQUAGREEN EXPO?

AquaGreen Expo is the first international online exhibition focused on the aquaponics industry and its derivatives. Its purpose is to publicize suppliers of the CIA and other allies to generate commercial networks.

We will have +15,000 attendees worldwide and +200 interactive stands, which will be integrated into a virtual tour format, through 4 thematic pavilions aimed at the main market trends.

The entrance is totally FREE for all the public, from anywhere in the world.

WHY BECOME AN EXHIBITOR?

1. Connect with new contacts, expanding your portfolio of suppliers and customers
2. Present the innovations of your company or association to more than 15,000 attendees from around the world
3. Increase your productivity and knowledge, expanding your vision of the industry with the different exhibitors

If you are looking to increase your presence in the market, AquaGreen Expo is the right place!

5 THEMATIC PAVILIONS

- Aquaculture Pavilion: Companies dedicated to the aquaculture and fishing industry
- Agricultural Pavilion: Companies dedicated to agribusiness
- Sustainable Production Pavilion: Ecotechnologies (permaculture, bacteria additives, filtration, among others)
- Renewable energy pavilion: Clean energies such as: solar, biomass, wind, among others.

AUDIENCE

- Companies related to the agro-aquaculture sector
- Suppliers of aquaponics supplies, equipment and services
- Training providers in agro-aquaculture sector systems
- Active primary aquaculture and agricultural producers
- Agricultural producers in technological expansion
- Educational institutions and research centers with a relationship or interest in aquaponics
- Agricultural producers with integrated biotechnologies
- Non-Governmental Organizations committed to environmental protection, health and sustainable production
- Trusts: people looking for funds or partners to start businesses
- Companies with environmental responsibility
- Similar face-to-face expos of the agro-aquaculture sector
